

IELTS BAND 8-9 VOCABULARY & PARAPHRASE BANK

300 high-value nouns, adjectives and verbs with simple-English escape routes.

IELTS Speaking + Writing | Band 8-9 Target

How to use this book

- Do not memorise advanced words as isolated synonyms. Learn the meaning, collocation, register, and a simple-English escape route.
- For every entry, say the advanced word, then explain it without using that word. This trains retrieval and paraphrase at the same time.
- In Speaking, if a word does not come within about one second, keep the idea and explain it in simpler English instead of stopping.
- In Writing, prefer precision and natural collocation over rare vocabulary. A sophisticated word used inaccurately is worse than a simpler word used precisely.
- No vocabulary list alone can guarantee Band 8 or 9. Official descriptors also require fluency/coherence, grammatical range/accuracy, pronunciation in Speaking, and task response/cohesion in Writing.

Assessment basis: IELTS Speaking Band Descriptors and IELTS Writing Band Descriptors published by IELTS.org. Band 8 emphasises a wide resource used flexibly and with precise meaning, with effective paraphrase in Speaking; Band 9 requires highly flexible, precise, natural control.

Practice protocol

- Round 1 - Recognition: read the advanced word and explain it aloud using the simple paraphrase.
- Round 2 - Retrieval: cover the word, read only the paraphrase, and recover the advanced word.
- Round 3 - Flexibility: create a new sentence about your own life or a common IELTS topic.
- Round 4 - Rescue mode: deliberately ban the advanced word and explain the same idea naturally in simple English.
- Round 5 - Spaced review: revisit difficult items after 1 day, 3 days, 7 days, and 14 days.
